“ I'm so sorry for your loss. I really enjoyed seeing your mom and visiting with her when she was at Woods Crossing, and missed her when she was moved. She had an interesting way about her that intrigued me, and I think I would have liked to have known her when she was younger, and in a better frame of mind. She was a joy.

“ You have my sympathy with the loss of your Mother. I met her at Woods crossing while my mother was there. Barbara loved music and that seemed to be her calming place. May you have the peace of God surround you during this difficult time.
