“ *Ludell was responsible for my entire career (now 49 years) in the field of technology and disability. I was an electrical engineer who had just decided to change to business school. Then I met Ludell. He inspired me through his spunk and wry humor, and challenged me to change direction and, with him and others, to find ways for people with disabilities to communicate - and later to use computers and other technologies. He kept me trying harder both through urging me on and through his dogged independence. He was always out and about - on State Street and around Madison. He will be missed. A tree will stand in the forest for him.*

“ *So sorry for your loss. I have memories of how smart "Ludell" was. He had his own special way of communicating and was loved so dearly by his family and friends over these many years. I learned so many lessons in watching all of you. Mainly that ALL lives have purpose and value and it is God's doing- no mistake. God bless*

“ *So sincerely sorry for Lydell's passing. I like to call him "Brother" as Sandy always called him, and also Lydell as Luann called him as he rode with us in that fancy blue pickup, in the 60's. He totally a miracle man, with home care , family love, and many friends acquired in his life etc. Fly high and enjoy the heavenly life. Love and prayers for Lydell's family.*
