“ I was sure sorry to read of Shirley's passing. As family friends I remember many happy times with Wilfred and Shirley. I also worked with Shirley at the old Nabor Inn, and had many laughs together. She was a wonderful woman, such class. She will be missed, I hope your happy memories help you through the coming days. I know she dearly loved her family and she will always be with you.

“Lynda and Family,
Sorry to hear about mom. Steve and Denise sent me a notice a few days ago. I'm wondering if my mother Etta might have worked with Shirley at APCO. It would've been in the late 50's. My mother was born in 1910, so she was much older. I hope you will still make it back to Mayberry for reunions. Still remember your house was just a skip and a jump from the pickle factory, grade school, and the button factory. I remember the large field out back and playing baseball. Mom gave us cold lemonade. Sending love and happiness out to you and family in your warm memories of her. Roger BHS "65"”
