“ Ted came out to vaccinate my horses one spring and I asked him to check the mare I purchased in the fall to see if she might be pregnant. She was and I asked when she might give birth. He estimated another month - well a week later I went to open her stall door to discover a sweet baby. It was fun to rib him about his estimate. Such a good natured person with a wealth of knowledge and compassion. He'll be missed.

I'll never forget the day he rescued me on the farm. I was stuck in the room of the manure chute and couldn't get out. Was yelling and kicking the door. He opened the door with a big grin on his face. Was such a compassionate and dedicated veterinarian. RIP. It's been many years Barb. My deepest condolences.
